

Early Years Foundation Stage

Home Visit Policy

We aim to offer every new child the opportunity to visit them in their home prior to starting their reception year in school.

During the home visit we will:

- Play with the child and build a relationship
- Observe the child in their home surroundings
- Note any parental concerns, health and SEN issues raised
- Develop a relationship with parents and reassure any anxieties

For the Health and Safety of the practitioners visiting homes the Provision will:

- Try to ensure that a minimum of two practitioners attend each visit
- Keep a record of the times and locations of visits
- If lone visiting takes place, make available a named person to be contacted upon the completion of visit
